CARTE COLLECTION

At Belinea, we do not follow the traditional approach of releasing new collections annually.

Each new collection we introduce seamlessly connects with the previous ones.

This ensures that all our furniture pieces remain compatible and can be effortlessly combined.

By mixing different materials, colors, and shapes, you can create a unique and personalized look that matches your personal style and interior. Our furniture is designed with great attention to detail and crafted from high-quality materials, making it not only visually appealing but also highly durable and timeless.

"Carte" is inspired by the ancient Italian card game featuring Hearts (Cuori), Clubs (Fiori), Spades (Picche), and Diamonds (Quadri).

The concept behind this collection, just like the card game, is that the different elements can be combined with each other, forming a series or sequence - a play of shapes and materials.

The "Carte" collection consists of four different parts: Cuori, Quadri, Picche, and Fiori.
